Early Psychosis Intervention Plus
Progress Report
Hanna Center's Community Mental Health Hub: CSC Early Psychosis Program

Contract: 1040.0701
Grant Quarter 3 Year 1: 5/30/2025 (3rd Progress Report)
Due Date: May 30 2025

Program Goals Reached:

- Hired and onboarded Child Psychiatric Medical Director
- Continued program structure development (updated budget and SOW)
- Continued all job descriptions, recruitment, and hiring of all other program staff (Lead Mental Health Therapist, Mental Health Therapist, Family Peer Specialist, Peer Specialist, Administrative Specialist).
- Continued contracting with legal, clinical, and programmatic expert consultants as needed for additional support.
- Continued EPI-CAL TTA Support
- Continued staff clinical trainings
- Began facilities set up (obtain office space for program)
- Began obtaining needed licenses and permits
- Began ordering computers and phones
- Began technology set up (internet, cell phone plan, software, EHR)
- Began ordering office equipment and supplies (office furniture, office supplies, outreach supplies, therapy supplies)
- Began collaboration with other local CSC programs.
- Began collaboration with Sonoma County Behavioral Health representatives

Services Provided:

Currently continuing development of staring psychotherapy services, psychotropic medication management services, case management services, employment and educational support services, family peer support services, and peer support services

Please answer the following questions, and feel free to add row(s) if you have additional items you'd like to address:

Program	
What types of services have been provided in the last quarter?	Since the last progress report, we are still in the development of starting psychotherapy services, psychotropic medication management services, case management services, employment and educational support services, family peer support services, and peer support services.
Hiring	
What is your staffing status? Please provide Duty Statements in a separate attachment to the Progress Report for any newly filled positions, if applicable.	We currently have recruited, hired, and onboarded: Child Psychiatric Medical Director, Clinical Program Manager, and Employment and Educational Specialist. We are currently recruiting: Lead Mental Health Therapist, Mental Health Therapist, Family Peer Specialist, Peer Specialist, Administrative Specialist.

How have you participated in fidelity monitoring and improvement processes?	We have been meeting between 1-2x/month with our EPI-CAL Liaison.

Have you collaborated with local entities such as school districts, colleges, primary care physicians, youth drop-in centers, law enforcement agencies, Diverse, Racial, and Ethnic community organizations, and other community programs which provide health and mental health services to or interact with transition age youth and young adults to ensure appropriate linkage to services? What is the name of the local entity? Please identify the program's role and the local entity's role in the collaboration.	We have collaborated with Sonoma County Behavioral Health Department representatives to begin discussion on how to become Medi-Cal certified and bid for a county contract. We have also begun collaboration with another local CSC program (Aldeas SOAR Program) to discuss current community gaps in care and how Hanna Centers Early Psychosis Program can support in filling in those gaps.

Training and Technical Assistance (TTA)	
In what ways has the TTA been beneficial in implementing the Coordinated Specialty Care (CSC) Model?	It has been very beneficial to meet on a monthly basis with our EPI-CAL TTA County Liaison for consultation and to have onboarded staff complete the EPI-CAL TTA On Demand and Live Trainings.
Where do you need more support from the TTA?	-CSC Staff In Person Trainings might be helpful with increasing staff motivation -Having CSC Program Managers/Director connect with other CSC Program Managers would also be helpful to learn from one another.
Are you experiencing any challenges with data collection?	No
Where do you need support on data collection?	N/A, since we have not clinically launched we have not focused on data collection as of yet

How have you begin developing a website with up-to-date early psychosis intervention information? Has the TTA assisted in the development?	Currently we are still gathering content before having our Marketing Team launch our CSC webpage.

Successes and Challenges	
Please tell us about one success which demonstrates the effectiveness of your program.	Collaborated with another local Sonoma County CSC program to identify current community gaps in CSC care and how Hanna Centers Early Psychosis Program can support in filling in those gaps to increase community access to CSC care.
Do you have any questions for Commission staff?	No

COMMUNITY HUB
MENTAL HEALTH AT HANNA

Job Title: CSC Administrative Specialist (Bilingual)

FLSA Classification: Non Exempt
Department : MHH
Reports to: Clinical Program Manager
Time: Full Time
Hours: Flexible (Monday – Friday, 9 am – 6pm)
Date Updated: April 24, 2025

Community Mental Health Hub

The Community Mental Health Hub at Hanna Center is an outpatient clinic that provides individual, family and group therapy services to the Sonoma County community. The clinic serves individuals 5 and above and accepts a wide range of insurances, fee for services, and sliding scale.

Program Description

The Coordinated Specialty Care (CSC) for Psychosis Program provides evidence-based assessment, psychotherapy, medication management, employment and educational support, peer support, and family support services to children and adults who have recently began experiencing symptoms of psychosis as part of a Coordinated Specialty Care (CSC) team. The CSC Program uses a person-centered, team-based, and recovery-oriented approach to help individuals manage their new experiences while achieving their personal goals.

Job Description

Summary/Objective
The Administrative Specialist plays a vital role in ensuring the smooth and efficient operation of our Community Support Clinic (CSC) program at the Mental Health Hub. This position is responsible for coordinating clinic activities, supporting intake and evaluation processes, and serving as the first point of contact for participants and families. The ideal candidate is compassionate, organized, detail-oriented, and committed to supporting access to quality mental health care.

Principle Duties and Responsibilities

Reasonable accommodations may be made to enable individuals with disabilities to perform these essential functions.

- Coordinate all programmatic front-office operations, including answering the main phone line and greeting service users and families in person for appointments
- Maintain organized systems for tracking calls, referrals, screenings, intakes, follow-up appointments, clinical documentation due.

- Schedule and confirm screenings, intake, follow-up evaluations, and ongoing appointments as needed by clinical staff.
- Support with ensuring accurate and timely documentation in clinical records and compliance with charting requirements
- Support data collection for clinical outcomes and fidelity evaluations.
- Supports with the development, maintenance, and organization of programmatic documents/files.
- Supports clinical staff in obtaining necessary pragmatic documentation.
- Collaborate with clinical and administrative staff to ensure timely communication and workflow
- Provide general administrative support, including filing, scanning, correspondence, and data entry
- Work with biller specialist to verify clients' insurance eligibility and coverage
- Process co-payments and other financial transactions for services
- Ensure accurate data entry into the Hub's Electronic Health Records System
- Work with a multi-disciplinary team that includes psychiatrist, mental health clinicians, employment and educational specialists, and family specialists, and peer support specialists.
- Attends and participates in weekly staff meetings
- Attends and participates in 1:1 management meeting with clinical program manager.
- Attends and participates in all assigned trainings for professional, program, and agency development.
- Comply with all federal regulations, Health Insurance Portability and Accountability Act (HIPAA), for the privacy and security of client information.
- Maintain quality assurance standards, adherence to MediCal/MediCare documentation requirements and data collection for measured outcomes.
- Additional duties as needed.

Minimum Requirements

- Associate's or Bachelor's degree preferred, ideally in a mental health, social work, public health, psychology, or related health field
- Experience in a healthcare, mental health, or social services setting strongly preferred
- Bilingual Spanish-English required

Core Competencies

- Communicate effectively orally and in writing in order to interview people, disseminate and record information.
- Understand and follow oral and written directions and apply them in a variety of situations.
- Use correct English grammar, punctuation, and spelling.

Comments

- Must clear background check for a Community Care Licensed facility, including physical, TB, and drug test.
- Sit for extended periods of time and the ability to manage repetitive hand/wrist movements while using a computer keyboard and/or the phone. Bend, squat, stoop, and walk- up a flight of stairs.
- Lift and/or carry up to 20 lbs., occasionally. Duties are primarily performed in an office environment at a desk or computer terminal.

Work Environment
Typical office and clinical environment. Responsibilities may include offsite meetings, trainings, or other activities as required by business needs.

Affirmative Action/EEO Statement
Hanna Center is an equal opportunity employer. All applicants will be considered for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, veteran, or disability status.

Other Duties
This job description is not designed to cover or contain a comprehensive listing of activities, duties, or responsibilities required of the employee for this job. Duties, responsibilities, and activities may change at any time with or without notice.

Job Title: CSC Child Psychiatric Medical Director

FLSA Classification: Non-Exempt
Department : Community Mental Heath Hub
Program : Coordinated Specialty Care (CSC)
Reports to: Clinical Director
Pay: $200-$400/Hour DOE
Hours: 3 Hours (minimum)-7 Hours/Week
Location: Remote/Hybrid
Date Updated: 3.14.2025

Job Description

Summary/Objective
The position of CSC Child Psychiatric Medical Director is responsible for the supervision of the Psychiatric Mental Health Nurse Practitioner (PMHNP) who will be responsible for the overall coordination and delivery of psychiatric medical services of children and adults who have recently began experiencing symptoms of psychosis as part of a Coordinated Specialty Care (CSC) team. CSC Child Psychiatric Medical Director should have training and experience in screening/assessing and treating attenuated and full psychosis with children and adults. This position is mostly remote but office space if available if desired. This position also has the opportunity to expand to overseeing other programs.

Essential functions

Reasonable accommodations may be made to enable individuals with disabilities to perform these essential functions.

- Contribute to CSC program medical development and implementation.
- Support with developing medical and clinical policies to ensure legal and ethical client care.
- Ensure the delivery of high-quality screening, assessment, treatment and related services by actively participating in ongoing quality assurance and audit processes to ensure compliance with county, state, and federal laws, rules and regulations
- Participate in recruitment, onboarding, and training of PMHNP.
- Provide weekly clinical supervision to PMHNP.
- Ensure proper credentialing, privileging, and performance review of PMHNP.
- Ensure that all CSC participants receive appropriate psychiatric medical evaluations including thorough medical screening, diagnosis, treatment, and ongoing monitoring.
- Supervise PMHNP in administering injectables
- Ensure that all psychiatric medical care is appropriately and timely documented in the medical record within 72 hours.
- Support the completion of evaluations for disability applications, conservatorship, and 5150/5585 evaluations if needed.
- Provide coverage as needed to ensure continuity of care

- Attends and participates in weekly program management meetings.
- Attends and participates in weekly staff meetings on a monthly basis or as needed
- Attends weekly clinical consultation meetings as needed
- Work with a multi-disciplinary team that includes psychiatric nurse practitioners, mental health clinicians, employment and educational specialists, and family specialists, and peer support specialists.
- Consult and provide on-going education to non-medical staff in psychopharmacology and medical aspects of patient care.
- Attends and participates in all assigned trainings for professional, program, and agency development.
- Comply with all federal regulations, Health Insurance Portability and Accountability Act (HIPAA), for the privacy and security of client information.
- Maintain quality assurance standards, adherence to MediCal/MediCare documentation requirements and data collection for measured outcomes.
- Additional duties as needed.

Minimum Requirements

- Valid license to practice medicine issued by the Medical Board of California AND Board-certified psychiatrist with at least 3 years post graduate experience as a practicing physician and 1 year of supervisory experience.
- Knowledge of the information and techniques needed to diagnose and treat human injuries, diseases, and psychosis. This includes symptoms, treatment alternatives, drug properties and interactions and preventative healthcare measures.
- Minimum 1 year experience working with the Clinically High Risk for Psychosis (CHRp) and First Episode Psychosis (FEP) population in a CSC program
- Bilingual in Spanish preferred.
- Current malpractice insurance.

Ability to

- Communicate effectively orally and in writing in order to interview people, disseminate and record information.
- Understand and follow oral and written directions and apply them in a variety of situations.
- Use correct English grammar, punctuation, and spelling.

Competencies

- Ability to oversee and support PMHNP and other team members with clinical and administrative expertise.
- Knowledge of psychiatric medical care for children and adults experiencing psychosis, including knowledge of psychopharmacology and treatment planning.
- Ability to demonstrate strong verbaly and written communication to effectively collaborate with multidisciplinary teams, participants, and families.
- Ability to provide services with sensitivity to diverse cultural, linguistic, and socioeconomic backgrounds.
- Ability to analyze clinical situations, develop effective solutions, and make sound medical decisions.
- Knowledge of legal and ethical guidelines related to psychiatric care, HIPAA, and Medi-Cal/MediCare documentation.
- Commitment to maintaining high standards of care through continuous quality monitoring and improvement efforts.
- Ability to mentor and educate staff on best practices in psychiatric care and emerging treatment modalities.

Comments

- Must clear background check for a Community Care Licensed facility, including physical, TB, and drug test.
- Sit for extended periods of time and the ability to manage repetitive hand/wrist movements while using a computer keyboard and/or the phone. Bend, squat, stoop, and walk- up a flight of stairs.
- Lift and/or carry up to 20 lbs., occasionally. Duties are primarily performed in an office environment at a desk or computer terminal.

MENTAL HEALTH AT HANNA

Job Title: CSC Family Peer Specialist (Bilingual)

FLSA Classification: Non - Exempt
Department : MHH
Reports to: Clinical Program Manager
Time: .5 FTE
Hours: Flexible
Date Updated: April 2025

Community Mental Health Hub

The Community Mental Health Hub at Hanna Center is an outpatient clinic that provides individual, family and group therapy services to the Sonoma County community. The clinic serves individuals 5 and above and accepts a wide range of insurances, fee for services, and sliding scale.

Program Description

The Coordinated Specialty Care (CSC) for Psychosis Program provides evidence-based assessment, psychotherapy, medication management, employment and educational support, peer support, and family support services to children and adults who have recently began experiencing symptoms of psychosis as part of a Coordinated Specialty Care (CSC) team. The CSC Program uses a person-centered, team-based, and recovery-oriented approach to help individuals manage their new experiences while achieving their personal goals.

Job Description

Summary/Objective

The Family Peer Specialist will serve as a peer to the family members/natural support of the individual primarily receiving CSC services. The Family Peer Specialist will use their lived experience as a parent/caregiver of someone who has experienced psychosis to advocate for and represent our participants families while working as part of a Coordinated Specialty Care (CSC). The Family Peer Specialist will provide individual and group-based family peer support services to participants family members/natural supports, educators, and community members. The Family Peer Specialist will be thoroughly trained in family supportive services. This position is community/office/remote based.

Essential functions

Reasonable accommodations may be made to enable individuals with disabilities to perform these essential functions.

- Provides a family peer perspective based on lived experience to the provider team, participants, and their caregivers/natural supports.
- Attends and participates in weekly team meetings

- Attends and participates in weekly management meetings
- Attends monthly consultation meetings
- Attends and participates in all assigned training for professional, program, and agency development.
- Assists with community outreach and education efforts
- Maintains a caseload of 40 families and meets expectations of 66% direct service hours monthly.
- Meets with families on a monthly, biweekly, or weekly basis depending on family needs.
- Provides education and support to participants families/natural supports as part of a clinical team.
- Co-leads Multi-family Groups in the evenings 5:30-7:30pm on a bi-weekly basis.
- Collaborates and coordinates on a weekly basis with other team staff including but not limited to psychotropic medication provider, mental health therapist, employment and educational specialist, and peer support specialist.
- Maintain timely weekly progress notes up to insurance standards.
- Submit required clinical documentation within 72 hours of service provided.
- Comply with all federal regulations, Health Insurance Portability and Accountability Act (HIPAA), for the privacy and security of client information.
- Maintain quality assurance standards, adherence to MediCal/MediCare documentation requirements and data collection for measured outcomes.
- Additional duties as needed.

Minimum Requirements:

- High School Diploma.
- Been a parent or primary caregiver of an individual with mental health challenges (preferably psychosis).
- Working knowledge of peer support roles and the history of service user movements.
- Experience supporting people of varying cultural & ethnic backgrounds in navigating the mental health system.
- Familiarity and knowledge of Sonoma County
- Willingness to work outside of office setting, in the community and homes of participants.
- Able to attend Team Meetings Tuesdays 10am-12pm.
- Able to rotate in co-facilitating MFG Groups on a bi-weekly basis Wednesdays 5:00pm-7:30pm.
- Open to working some afternoon/evenings 2pm – 6pm.
- Spanish speaking.
- Drivers License.

Preferred Qualifications:

- Completion of the Medi-Cal Peer Support Specialist Certification (or willingness to obtain).

Competencies:

- Uses personal experience as a caregiver of someone with psychosis to provide empathetic, peer-based support to families.
- Communicates effectively in Spanish and English while supporting families from diverse cultural backgrounds.

- Works closely with a multidisciplinary team to coordinate care and share family perspectives during meetings and planning.
- Manages a caseload, provides regular peer support, and maintains accurate clinical documentation in compliance with standards.
- Delivers services in office, remotely, and in the community, including evenings, while engaging in outreach and education efforts.

Ability To:

- Communicate effectively orally and in writing to interview people, disseminate and record information.
- Understand and follow oral and written directions and apply them in a variety of situations.
- Use correct English grammar, punctuation, and spelling.

Comments:

- Must clear background check for a Community Care Licensed facility, including physical, TB, and drug test.
- Sit for extended periods of time and the ability to manage repetitive hand/wrist movements while using a computer keyboard and/or the phone. Bend, squat, stoop, and walk- up a flight of stairs.
- Lift and/or carry up to 20 lbs., occasionally. Duties are primarily performed in an office environment at a desk or computer terminal.

Job Title: CSC Lead Mental Health Therapist (Bilingual)

FLSA Classification: Exempt
Department : MHH
Reports to: Clinical Program Manager
Date Updated: April 2025

Job Description

Summary/Objective

The position of Lead Mental Health Therapist is responsible for coordinating and providing the therapeutic needs of clients on their assigned caseload, support with program outreach, and provide non-supervisory support to other mental health therapist and support staff as needed. The Lead Mental Health Therapist will work with individuals who have recently begun experiencing symptoms of psychosis as part of a Coordinated Specialty Care (CSC) team. The Lead Mental Health Therapist will be thoroughly trained in screening/assessing and treating psychosis. This position is community/office based.

Essential functions

Reasonable accommodations may be made to enable individuals with disabilities to perform these essential functions.

- Support with program outreach presentations
- Provides comprehensive clinical assessment of assigned participants.
- Develops with the participants and families/caregivers a recovery-oriented service plan that supports the personal goals of the participant and their families/caregivers.
- Provides direct services to clients and families, including individual therapy, family therapy, group therapy, and case management services to mild, moderate, and severe level of care clients.
- Provides family support to participants' parents on a weekly, bi-weekly, or monthly basis, as needed by the participant and their family.
- Supports and advocates for clients and client's family needs by attending clients schools 504 and IEP meetings.
- Ensures and coordinates the provision of psychiatric evaluation and medication monitoring service as indicated by the client's psychiatrist or other medical provider.
- Provides treatment in a variety of settings including schools, homes, group homes, foster homes and in-office, in consideration of client needs and safety concerns.
- Maintain timely weekly progress notes, quarterly and closing summaries up to insurance standards. Submit required clinical documentation within 72 hours of service provided.

- Provides discharge planning and coordinates and secures aftercare resources throughout treatment and immediately prior to discharge.
- Maintains a caseload of 15-20 clients and meets expectations of 63% direct service hours monthly.
- Rotates in co-leading Multi-family Groups in the evenings 5:30-7:30pm on a bi-weekly basis.
- Provides crisis intervention services within the assigned program scope of services and through the agency-wide on-call system.
- Attends and participates in weekly staff meetings.
- Attends and participates in weekly individual and/or group supervision.
- Attends weekly clinical consultation meetings.
- Collaborates and coordinates treatment on a weekly basis with support staff including but not limited to psychotropic medication provider, employment and educational specialist, and family specialist, and peer support specialist.
- Attends and participates in all assigned training for professional, program, and agency development.
- Maintains registration or licensure, meets all requirements for Continuing Education per the BBS or BOP.
- Abides by the ethical standards promoted by the Board of Behavioral Sciences or Board of Psychology as applicable, as well as professional associations related to the therapist's clinical discipline.
- Remains informed of Board of Behavioral Sciences (BBS) and/or Board of Psychology (BOP) laws and regulations.
- Effectively manages initial evaluation, screening, and recommending appropriate disposition.
- Effectively develops and updates client treatment plans for each client caseload based on timely supervisory reviews and via consistent sessions with clients.
- Comply with all federal regulations, Health Insurance Portability and Accountability Act (HIPAA), for the privacy and security of client information.
- Maintain quality assurance standards, adherence to MediCal/MediCare documentation requirements and data collection for measured outcomes.
- Additional duties as needed.

Core Competencies

- Proficient in assessment, diagnosis, treatment planning, and evidence-based therapeutic interventions for individuals with early psychosis and other mental health needs.
- Skilled in providing responsive, bilingual support to clients and their families, including advocacy in educational and community settings.
- Strong ability to work within interdisciplinary teams, coordinating with psychiatrists, peer specialists, and support staff for integrated client care.
- Detail-oriented in maintaining timely and accurate clinical documentation in compliance with Medi-Cal/Medicare, HIPAA, and agency quality standards.
- Provides guidance to peers, supports outreach efforts, co-leads group therapy, and contributes to program development without direct supervisory duties.

- Capable of delivering effective crisis interventions and providing therapeutic services across various environments (home, school, office) with flexible scheduling.
- Maintains licensure, adheres to professional ethics and legal standards, and commits to continuous learning and professional development.

Education and Experience

- Master's degree in Marriage and Family Therapy and registration as an Associate Marriage and Family Therapist (AMFT) or Licensed Marriage and Family Therapist (LMFT) with the Board of Behavioral Sciences, Master's degree in social work and registration as an Associate Clinical Social Worker (ASW) or Licensed Clinical Social Worker (LCSW) with the Board of Behavioral Sciences, Master's degree in Counseling and registration as an Associate Professional Clinical Counselor (APCC) or Licensed Professional Clinical Counselor (LPCC) with the Board of Behavioral Sciences.
