Services Provided:

Program staff has begun community education and outreach at community events through tabling. Since program launch (go-live) of 10/20/25, program has provided in-reach, began outreach to community based organizations in Sonoma County for ongoing community education and outreach, and is now live for consultations and referrals for CSC specialty services (specialized psychosis evaluations, psychotherapy, medication management, employment and educational support services, Peer Services, and Family Peer Services) for the entire Sonoma County Community.

Please answer the following questions, and feel free to add row(s) if you have additional items you'd like to address:

Hiring	
What is your staffing status? Please provide Duty Statements in a separate attachment to the Progress Report for any newly filled positions, if applicable.	We have recruited, hired, and onboarded: Clinical Program Manager, Employment and Educational Specialist, Child Psychiatric Medical Director, Compliance Specialist, Peer Specialist, Mental Health Therapist, Family Peer Specialist, Administrative Specialist, Psychiatric Mental Health Nurse Practitioner, Lead Mental Health Therapist (temporary) We are currently still recruiting for: Lead Mental Health Therapist (permanent)

Program	
What types of services have been provided in the last quarter?	Since the last progress report, we have clinically launched and began community education and outreach. We are now open for referrals for specialized psychosis evaluations, psychotherapy services, psychotropic medication management services, case management services, employment and educational support services, family peer support services, and peer support services.
How have you participated in fidelity monitoring and improvement processes?	Our programmatic leadership has continued meeting between 1-2x/month with our EPI-CAL Liaison, Tara Niendam to ensure program fidelity during development and launch. In attendance are: Cindy Herrera- CSC Clinical Program Manager Carla Arellano – CSC Child Psychiatric Medical Director Monica Argenti – Hanna Center Manager of Grants and Compliance Kym Singer – Hanna Center Director of Operations Evelynn Hernandez-Brown- Hanna Centers Clinical Director Cindy Isom – Compliance and QA Specialist
Have you collaborated with local entities such as school districts, colleges, primary care physicians, youth drop-in centers, law enforcement agencies, Diverse, Racial, and Ethnic community organizations, and other community programs which provide health and mental health services to or interact with transition age youth and young adults to ensure appropriate linkage to services? What is the name of the local entity? Please identify the program's role and the local entity's role in the collaboration.	We have connected with Sonoma County Behavioral Health Department representatives to begin discussion on how to become Medi-Cal certified and bid for a county contract. We have collaborated with another local CSC program (Aldea SOAR) to discuss current community gaps in care and how Hanna Centers Early Psychosis Program can support filling those gaps. We have reached out to the following local entities to inform them of our programs clinical launch, information on program (population served, services offered, & eligibility criteria), and offering an education and outreach presentation to their teams: -Sonoma Family Valley Family Therapy -Sonoma Valley Community Health Center -La Luz Center -Sonoma Valley High School

	-Altamira Middle School -Boys and Girls Club of Sonoma Valley

Training and Technical Assistance (TTA)	
In what ways has the TTA been beneficial in implementing the Coordinated Specialty Care (CSC) Model?	The TTA has been extremely beneficial in implementing the CSC model in every aspect, including but not limited to: -Program structure development -Recruiting -Training -Individual programmatic staff role support -Community education and outreach strategy -Sustainability planning -Networking within the county for program sustainability
Where do you need more support from the TTA?	Substance use treatment training
Are you experiencing any challenges with data collection?	No
Where do you need support on data collection?	None, everything is coming along to begin data collection once we begin to enroll program participants.
How have you begun developing a website with up-to-date early psychosis intervention information? Has the TTA assisted in the development?	Our Marketing Team has launched our CSC webpage draft. We are currently working on updating the content to be aligned with the most up-to-date early psychosis intervention information.

Successes and Challenges	
Please tell us about one success which demonstrates the effectiveness of your program.	We have been able to recruit and onboard 10 of our 11 program staff. Where 87% of our direct service program staff is bi-lingual (Spanish and English) therefore being able to better support the Spanish speaking population of Sonoma County.
Do you have any questions for Commission staff?	No
