Work Plan – Elevate Youth California

Organization Name: Hanna Center
Grant Period: 11/2023-11/2026

Priority Area/Population: Youth ages 14-19 in Sonoma Valley

Problem Statement: Youth in Sonoma Valley are disproportionately affected by anxiety, depression and mental health issues, raising the risk of substance use disorder.

Contributing Factors: Local Fires, Pandemic, Great Wealth Disparity, a Large Population feeling disenfranchised due to language barriers, medical insurance barriers, etc

Program Goal: To increase peer-to-peer support within Sonoma Valley and empower students to work together to advocate for themselves and others through a Healing Justice framework that helps mitigate the risk of depression, anxiety and substance use disorder.

Policy Goal: To empower participants to advocate for themselves and others at the City, County and State levels for increased support for mental health services for youth, particularly in an area that receives little funding for mental health (most funds go towards Santa Rosa and more urban areas)

Work Plan

The work plan has five parts:

- **Objectives:** The objectives are statements of what major accomplishments you expect to achieve that year. Objectives should relate to the contributing factors. For example, you might have an objective related to decreases in depression. Please limit your plans to the 2-4 objectives that are essential for achieving your project goal. Objectives should be "SMART":
    - **Specific:** Identify the specific change you want to see, including the individuals or groups you want to see the change in.
    - **Measurable:** Identify how much change you expect to see.
    - **Achievable:** Be ambitious, but also realistic, in what can be achieved in a year's time.
    - **Relevant:** Identify changes that are likely to affect the contributing factors in ways that will help you achieve the overall project goal.
    - **Time-bound:** All objectives should be achievable by the end of the grant period. Annual objectives should identify what can be achieved in each year.

- **Examples:**
  - In partnership with the local school district, create 10 Gay Straight Alliances (GSA) at two high schools and three middle schools by 2026 (by the end of project).
  - Develop new school district policy that replaces zero-tolerance approaches for bullying and substance use with healing-centered restorative justice practices in six middle schools and three high schools in Plumas County by 2025.
  - Plan and host an annual youth action summit to educate and empower youth ages 12-26 on topics of policy systems change, advocacy and SUD prevention in Plumas County by 2024.
- **NOTE: You will be required to report on the extent to which you achieved or exceeded your objectives. Make them ambitious, but realistic.**

- **Responsible staff/partner:** Identify the responsible partner/organization who will be implementing the specific objective.
- **Monitoring/evaluation approach:** In this column, identify the tool and analysis approach you will use to track progress toward your intermediate/long-term outcomes and overall goal.
- **Activities:** List the activities that support the identified objective.
- **Timeline:** Identify the stand and end dates.

1. Programmatic Objectives

Objective 1A:	Create a safe, comfortable, supportive and inclusive space that nurtures trust and promotes emotional well-being among marginalized youth participants; Enroll 20-25 high school students during each cohort from Sonoma Valley high schools (total of 5 cohorts)		
Project activities that support the identified objective	**Responsible staff/partners**	**Timeline**	
		Start Date	**End Date**
• Develop and maintain a nurturing and inclusive environment within the SV4HJ program, where marginalized youth feel safe, valued, and supported. • Implement trauma-informed practices and culturally responsive approaches to ensure	Hanna Center staff and On the Margins consultants	11/2023	11/26

that participants can openly explore healing justice concepts and their personal experiences. • Regularly assess the program's physical and emotional safety, making adjustments as needed to maintain a welcoming space for all participants. • Promote participant agency by allowing participants to use their voice and power.			

Monitoring/evaluation approach:

- Conduct pre and post program surveys to assess participants' perception of the program's safe and comfortable space.
- Evaluate participant engagement levels and active participation in group discussions and reflective activities.

Objective 1B:	Facilitate opportunities for participants to share their knowledge and experiences gained from the program with a broader audience, both within and beyond Sonoma Valley.

Project activities that support the identified objective	**Responsible staff/partners**	**Timeline**	
		Start Date	**End Date**
• Encourage SV4HJ participants to actively engage with their peers by organizing and participating in community events that promote healing justice principles. • Host one Healing Justice Clinic, reaching 50 - 100 Sonoma Valley Youth, (currently planning an annual event in May).Hosted at Hanna Center, in collaboration with On the Margins, this clinic will provide immersive experiences rooted in the principles of healing justice. • Encourage participants to invite their community to the youth-led event and take part in outreach activities.	Hanna Center staff and On the Margins consultants	11/2023	11/2026

Monitoring/evaluation approach:

- Track the number of participants who actively participate in organizing and presenting at community events.
- Document the impact of community event participation in terms of increased awareness and understanding of healing justice among the wider community.
- Survey attendees of Hanna Center event.

Objective 1C:

		Start Date	End Date
Monitoring/evaluation approach:			

2. Policy, Systems and Environmental Objective

Objective 2A:	Empower and support 125 SV4HJ participants to engage in advocacy and strategic initiatives that contribute to positive policy and/or cultural shifts in the Sonoma Valley community.		
Activities that support the identified objective	**Responsible staff/partners**	**Timeline**	
		Start Date	**End Date**
• Educate participants on systemic issues related to trauma, substance use, and generational trauma through the SV4HJ curriculum. • Train participants in effective advocacy strategies, starting with being advocates for their own health and happiness.	Hanna Center and On the Margins consultants	11/23	11/26

• Youth-led event can take shape depending on whatever advocacy priorities come out of each cohort.			

Monitoring/evaluation approach:

- Document and monitor any advocacy initiatives undertaken by SV4HJ participants, including participation in on-campus, youth-led event,engagement with systems, and engagement with partner organizations or community members.

Objective 2B:
